

ABERDEEN ANGUS BEEF CERTIFICATION

21 September 2026

ESSENTIAL FOODS sources exclusively Aberdeen Angus Beef from the Scottish Highlands. The beef is naturally rich in Omega-3 and Omega-6 fatty acids, Vitamin B12, high-quality protein and essential minerals, while being relatively low in calories and saturated fat.

The cattle are predominantly grass-fed, helping to produce beef with exceptional flavour, tenderness and texture, while supporting its natural nutritional qualities.

With our beef collected directly from the farm, we have complete confidence in its provenance and can guarantee that you are getting genuine Aberdeen Angus Beef from the Scottish Highlands, with full traceability from farm to table.
